Fort Washington Way Project – Demolition and Restoration

WHAT/WHEN: Crews of Prus Construction Company began work **Monday, June 13, 2005** on the final contract for the Fort Washington Way Project. This contract completes a variety of items mandated by the Ohio Department of Transportation, or omitted, deleted, or deferred from other FWW contracts. Work includes: demolition of temporary ramps, modifications to highway signing, lighting and paving, minor modifications to the FWW pump house and transit center, and restoration of landscaping, sidewalk pavers and fencing on various city streets and properties.

The company should finish in March 2006; this will close the Fort Washington Way Project. The work will impact traffic on interstate I-75, I-71 and various city street (exact locations and times will be announced later). The contractor will coordinate access to properties.

WHERE: **Fort Washington Way – Downtown Cincinnati**

The Department of Transportation and Engineering oversees the rehabilitation and improvement of streets in the City of Cincinnati. The Department also does transportation planning, design, engineering services, structural and geotechnical services, right of way regulation, and construction management. It is the clearinghouse for all City and regional transportation functions, and also serving as a liaison to the Southwest Ohio Regional Transit Authority. Visit us at <http://www.cincinnati-oh.gov/transeng> for additional information and construction activity.
